

**Assessment of Regulated and Non-Regulated Industry Utility Fees** - The LRC Study Committee on the Assessment of Regulated and Non-Regulated Industry Utility Fees shall examine the regulatory fee structure of the North Carolina Utilities Commission to ensure that fees are not inequitably assessed. The committee shall place particular focus on the fees assessed to entities that opted for lower levels of regulation. The committee may also consider appropriate remedies to ensure sufficient funding to allow the Utilities Commission to fulfill its statutory obligations.

The committee may study other issues pertinent to this study.
